50 CHILDREN HAVE BEEN KILLED. | 03.08.22

This to me is the most tragic of all the tragedies in Ukraine. The innocent who should just be playing and full of joy and no worry. I was thinking that they must miss their toys so much. Did you see the clip of the family who fled so quickly, all the toys were still there. Can we start a toy drive? Can we do a massive air drop of toys? Should we design a Teddy Bear and name him after Zelensky? Have them parachute in to all the refugee camps? Teddy Bear Paratroopers?

See my note under Ernie's idea. The Z seems to be a symbol to unite Russians behind the war. We could easily appropriate it using the letterform as the first letter in Zelensky. "Zelensky Bears" for instance.

That's awesome. Maybe, to Ernie's other idea, each bear has a "Z" on its shirt.

BTW, I just remembered Zelensky was the voice of Paddington Bear in Ukraine.
