BUDMO! | 03.04.22

The Ukrainian toast means "Let Us Be." Start Budmo nights at local bars in support of Ukraine. Perhaps drinking Ukrainian Nemiroff Honey and Pepper Vodka. Also Budmo! tee-shirts. And guerilla Budmo! pretty much anywhere.

As a riff, what if Nemiroff were to donate tens of thousand of empty bottles for molotov cocktails.

Wow, this is fantastic! I could see all kinds of user generated content from people all over the world in bars doing shots and yelling "Budmo!" And yes, charge \$8 for each shot instead of \$5, so \$3 can go to the Ukraine.

The shots heard round the world! Budmo!

Ernie, great build - save those bottles and ship them to the front. So good.

Thinking "Budmo" could be the way that the "Solidarity" logo was with Lech Walesa.
